About Nature Art Prompts

Making collaborative art is always an enriching experience. This pack invites you to participate in a DOUBLE collaboration. First, it is a collaboration with the creators of the prompts. Second, it is a collaboration with nature. Nature offers a great variety of textures and colours, and it is great fun to use them!

This nature art prompt encourages you to finish the base drawings of birds with natural materials.

This is a free trial template with one bird drawing only. [Get the full pack with six bird drawings here!](#) You can also purchase it as a part of our [Nature STEAM bundle](#) along with other nature-inspired printable projects.

How to Make Nature Art

1. Go outside and collect natural materials—leaves of different shapes and colours, flowers and petals, sticks, seeds, etc.
2. Besides natural materials, you might need scissors for trimming leaves and petals into shapes and glue if you want the pieces to hold better.
3. Using glue isn't necessary. This kind of art has a transitory nature, unless you decide to use pressed and dried flowers and leaves, in which case, this piece of art can be framed and kept for a considerable length of time.
4. Work made of perishable materials can also be preserved and displayed as a photograph.
