The Easter/spring pattern block templates feature:

- Different levels of complexity, based on the cards you choose to use.

- Two scales of cards: four designs on one sheet (convenient card size) and one design per sheet (100% scale and easiest to replicate for young children).

- Coloured and black-and-white templates: the former are easier to use, while the latter encourage students to pay attention to the shape rather than the colour.

- Cards that ask children to solve an additional mathematical problem by counting the blocks of a certain colour.

Benefits of Using Easter/spring pattern block templates:

Working with the design templates is beneficial for:

- Practicing basic math skills: matching, counting, shape and colour recognition, and patterning

- Developing critical thinking and spatial awareness working on building challenges

- Working on hand-eye coordination and fine motor skills

How to Use Easter pattern block design templates:

Print and cut the cards.

Use them as inspiration for building designs with pattern blocks, or set up an Easter/spring-themed STEM center.
